Property Managers Report July 2024

July 2024: CPM has been preforming up to standards by their contract and by all reports from the village at large. Lawn's have shown noticeable improvement and look much more healthy. My neighbor's lawn for the years I have lived here has been mostly sand, the CPM process of not vacuuming up the clippings each time has now caused lawn to grow there now. Behind my unit as well was also dirt now has a lot of growth. There was two complaints this month 1 lawn damage when their machines turned in the lawn, with the amount of rain that is going to happen the ground is pretty soft in some areas. 2nd complaint was clippings int he sidewalk, but CPM always makes a second pass thru the village after they compete trimming and mowing the next day to make sure the walks are clear. They completed the first round of trimming trees and are currently working on the second list.

Work Tasks/Work Orders: July 2024 saw a reduction of amount of work requests. At present (time of this writing) there are no unaddressed requests, work orders or Architectural requests. I have also continued getting old requests checked and completed. I am currently working on Dec 2023, I am almost in our current year.

Village Inspection: The units in the village are in good to very good condition, paint and moss on roofs continue to be an issue. Gerry and I will be meeting the weekend before the meeting in August to go over the paint list and it should be ready for the meeting for the board to review. Paint will be a major expense due to it inflated cost. One issue with a swing in the common area was addressed and removed. Trees continue to be a major issue with the inspections with a couple over grown areas needing addressing. Tree removal also is being addressed with our most dangerous trees being addressed at August's monthly meeting.

JULY 2024 1

Closing:

Tasks/Work Orders/Emails: We are current at present with no major issues needed at this time. I would like to thank Judy for hosting the last training it was very informative and helped with a few issues with buildium

Lawn Care: CPM continues to do better each month from the last. The residents continually tell me the lawns have never looked better. Trees are being addressed and we are closing the gap on what needs to be done to where it is now just maintaining the area.
